TECHNICAL SKILLS

C++ / Java / Python

JavaScript / React.js

Node.js / Express.js

HTML5 / CSS3 / Tailwind

MySQL / MongoDB / PSQL

DSA / OOPs

Git / GitHub

TOOLS & PLATFORMS

- Git / GitHub
- VS Code
- Postman
- ESP32CAM
- Tailwind CSS
- Bootstrap

EDUCATION

B.Tech — Computer Engineering

K.K. Wagh Institute (KKWIEER)
Nashik | Expected 2027
CGPA: 7.39 / 10.0

HSC — Science

Maharashtra Board | 65%

SSC

Maharashtra Board | 90%

Swayam Vijay Jadhav

Computer Engineering Student | Full-Stack Developer

● Open to Internships & Freelance Work

PROFESSIONAL SUMMARY

Detail-oriented 3rd-year Computer Engineering student with a strong foundation in DSA (C++, Java) and Full-Stack Web Development. Hands-on experience building responsive frontends and robust backend architectures. Currently delivering a production-grade member management portal for Achievers Club Nashik. Eager to leverage analytical problem-solving skills in a professional environment.

PROJECTS

Achievers Club Nashik — Member Management Portal

achieversnashik.in

Next.js TypeScript TiDB Cloud Vercel Groq AI Resend

- Full-stack portal with OTP-based registration, JWT auth, and role-based access (Admin/Mentor/Member/Pending)
- AI chatbot (Achibot) via Groq llama-3.3-70b, dark mode, CSV/JSON export, profile upload
- Live at achieversnashik.in — custom domain email via Resend, deployed on Vercel

SwiftWheels — Urban Carpooling Web Application

github.com/svjadhav2010-hub

Node.js Express.js MongoDB JavaScript MVC

- Architected MVC-patterned full-stack platform with administrative dashboard
- Custom RBAC middleware for API security; automated SMTP pipelines for OTP & transaction receipts

Vision Streaming AI for Visually Impaired (IoT)

github.com/svjadhav2010-hub

ESP32CAM Python smol-vlm IoT

- Hardware-software integrated solution using AI vision streaming for visually impaired users

EXPERIENCE

Freelance Web Developer

2023 – Present

- Building production web apps for real clients alongside academic work
- End-to-end ownership: design, development, deployment, and ongoing maintenance
- Completed intensive professional training in frontend and backend development
- Debugged complex logic flows and optimized code execution in E2E implementations

CERTIFICATIONS & ACHIEVEMENTS

- **Data Structures & Algorithms** 2023
C++ / Java — Udemy / Online
- **Object-Oriented Programming** 2023
OOPs — Online Certification
- **Essentials of AI** 2024
Online Certification
- **Runner-up — Inter-college Football Tournament**
Demonstrated teamwork, resilience, and decision-making under pressure
